	List 1 - 16x	List 1 - 4x	
16x	manu	doopy	
16x	kita	virdex	**TEST**
12x	fiffin	fiffin	*identical across participants*
12x	pizer	pizer	
8x	tosip	tosip	manu
8x	regli	regli	kita
4x	doopy	manu	sarel
4x	virdex	kita	boskot

	List 2 - 16x	List 2 - 4x	
16x	sarel	doopy	
16x	boskot	virdex	manu, kita are familiar if trained on List 1 and novel if trained on List 2
12x	fiffin	fiffin	
12x	pizer	pizer	
8x	tosip	tosip	sarel, boskot are familiar if trained on List 2 and novel if trained on List 1
8x	regli	regli	
4x	doopy	sarel	
4x	virdex	boskot	

Figure 1. Experiment Design. In the initial project, only the words presented 16 times or 4 times during training are tested. In the experiments planned for the next phase of the project, the words with intermediate frequencies (e.g., 8x, 12x) would also be tested in separate between-subjects conditions.
